Dear Nobert Kreuzkamp,

On behalf of the ESF Learning Network IMPART and the Office of the Commissioner of Integration and Migration of the Berlin Senate, we would like to thank you for participating as a peer in the Peer Review study visit on the third theme *Integrated Territorial Approaches* in Stockholm, Sweden between 17 and 20 October 2011.

Your excellent participation in the obligatory Training Seminar in Bonn, 22 and 23 March 2011 laid the groundwork for what has been a very successful study visit. The training covered the IMPART approach to peer review, reviewing the project report, undertaking interviews and workshops and how to assess the evidence and feed back to host projects. We appreciate the hard work and dedication that you put into the preparation and implementation of this visit as well as the way you shared your own expertise. We are grateful that you took time off from your regular work which your employer allowed. Please extend our thanks to them too.

In addition to a thorough review of the selected project, which resulted in a detailed report, your presence on the IMPART Peer Review has also taught us much about the process. From your feedback and observations we were able to fine tune the Peer Review process and also make adjustments to the Benchmarking Toolkit. In addition to making representations to the EU Commission on mainstreaming and support for migrant employment, the Benchmarking Toolkit and the methodology behind it will also be outcomes of the Learning Network.

We hope the IMPART Peer Review was an enriching experience for you and again thank you for your participation. If you were interested in following up on the developments of the Network, we would be delighted to welcome you on our websites www.impart.eu and <http://www.berlin.de/lb/intmig/themen/thema06/impart.html>.

Yours sincerely

Cigdem Ipek
Project Coordinator
